

Systems Technologies Value Offering

**INNOVATIVE PARTNERSHIP ACROSS
THE LIFECYCLE OF YOUR PROJECT**
for excellence and cross-trade cohesion.

**INNOVATIVE PARTNERSHIP ACROSS
THE LIFECYCLE OF YOUR PROJECT**

FOR DEVELOPERS
AND GENERAL
CONTRACTORS

OUTCOMES-FOCUSED

Focused on outcomes versus products, we tailor and design our solutions with clear, unbiased approach that expands possibilities into new realms.

PERSISTENT PRESENCE

As your partner across the project, we coordinate our resources and construction to install Systems efficiently, and in advanced of clashing trades

FUTURE READY

We remain on the leading edge of construction, technology, and regulatory developments

FOR UNIT BUYERS
AND END USERS

SIDEWALK-TO-SOFA

Focused on outcomes versus products, we create experiences that are centralized, seamless, and intuitive

DESIGNED TO SUIT

We design and build for the intended level of customization, and install with user readiness, avoiding costly retrofits and redesigns

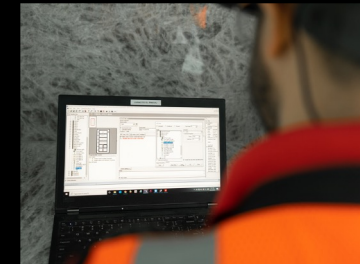

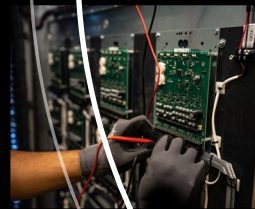

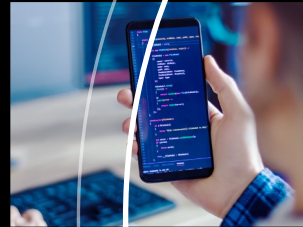

FUTURE PROOF

We design and build with infrastructure and solutions that provide scalability and sustainability

**DIVERSIFIED EXPERIENCE
AND UNMATCHED SCALE**
for assurance and performance

**DIVERSIFIED EXPERIENCE
AND UNMATCHED SCALE**

FOR DEVELOPERS
AND GENERAL
CONTRACTORS

ONE TRUSTED PARTNER

Our holistic approach allows us to support you with full accountability and less complexity through a singular point of contact.

READY-MADE OR MADE-TO-SUIT

With proven success on some of the country's most complex projects, our team has proven solutions at-the-ready, and the IP to create custom solutions efficiently.

UNMATCHED SCALE & COORDINATION

Our depth of resources and experience across trades:

- Enhances quality and accuracy
- Optimizes cost and time
- Fewer clashes and coordination issues

OUR COMPETITIVE VALUE, **SIMPLIFIED**

OTHER PROVIDERS		
3-10 Contractors	vs	One Partner
Complex	vs	Simple Management
Clashes	vs	Cohesion
Product-focused	vs	Outcome-focused
Biased Mindset	vs	Integrated Mindset
Retro-fit <i>or</i> Retro-fix	vs	Ready-to-suit
Supplier-reliant	vs	Supplier-agnostic
